

EVOLVE W10 ANTENNA

Checkpoint's EVOLVE W10 pedestal provides retailers with a classic style of antenna for environments with specific aesthetic demands. The EVOLVE W10 model is equipped with the latest EVOLVE electronics providing retailers all of the latest benefits and features including wide aisle detection, Smart Alarm Management (SAM), the ability to capture event data and multi-frequency support all at a lower cost of ownership. The solid oak frame can be stained to match a retailer's decor.

Available Feature Accessories

- VisiPlus People Counting
- Internal Modem
- MetalPoint Integration
- Installed Strata EX model upgrades

Optional VisiPlus
People Counter
